

SNOW!SNOW!SNOW! That's what this winters been all about. Let's change gears and think about fishing at **SPLIT ROCK LODGE**. Last summer we had good weather, good fishing, and a good number of new and old guests at **SPLIT ROCK LODGE**. Angela, 11 years old, on her first visit to **SPLIT ROCK LODGE**, her first fish 36" muskie, 2nd fish a 24" walleye and finished up with a 38" northern, said, "I can't believe I wasted all those years not coming up to **SPLIT ROCK LODGE**"!

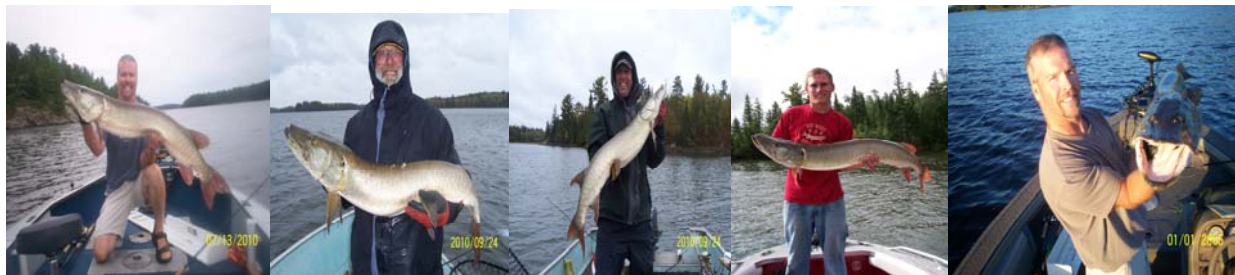

Walleye Fishing - Opens May 21, 2011 ...Mike's guiding for anyone interested. Important things first...Linda caught a 29 ¼" walleye in August!!! Her biggest one ever and the first time ever getting a bigger one then Mike! Walleye fishing continues to be great all season long. Lots of numbers and good size, including a guest catching a 29 ½" in the fall. Way to go Toad!

Crappie, Northern and Bass Fishing

The crappies were hard to find in a school. You'd pick up a few here and a few there. We had to go to Obabiken Bay to get our limit. The size of crappies was there just not the numbers everyone's use to. Hoping for a more normal crappie season in 2011. Northern and bass were plentiful and big.

Muskie Fishing - Opens June 21, 2011 - We have cabins available!

MUSKIE!MUSKIE!MUSKIE! Guests are catching them like snowflakes in winter. Every size and lots of them. In July, 1st time guest, Todd, caught 5 his 1st day, 5 his 2nd day and ended up with 17 for the week! Way cool! Fishing was so good even Well Fed caught one!

SPLIT ROCK MUSKIE LOGS BY NUMBER: Under 30(20) 30-35(43) 35-40(89) 40-45(78) 45-50(23)

Mike put a new roof on the shed to make way for a new store. Store opening 2011!
